## CONVENTIONAL NOZZLE for PLASTIC CARTRIDGE &

Vaktools® Easy Attach Adapter for SAUSAGE GUN

Conventional Plastic Cartridge Nozzle		
VakTools® Easy Attach Adapter		
Cartridge form & Sausage (Foil) form		
Cartridge & Sausage(Foil) Gun		

## 'VakTools® - Easy Attach Adapter' Advantages for Foil & Cartridge packs

- 1) **2 in 1:** Standard Plastic Cartridge Pack Nozzles can use also as a Sausage (Foil) Pack Gun nozzle by **VakTools® Easy Attach Adapter**.
  - Same thread for both applicator
  - Reduces Stock Cost
- 2) **VakTools® Easy Attach Adapter** can be Fixed inside of Sausage (Foil) Pack Gun head, no need to remove all the time **VakTools® Easy Attach Adapter**, just replace the Standard Plastic Cartridge Nozzles when it needs.
  - Reduces labor cost and time.
- 3) **VakTools® Easy Attach Adapter** enters in Sausage (Foil) Pack Gun head completely and tightly, One-component Adhesive-Caulking-Sealant cannot leak easy in the Sausage (Foil) Pack Gun. It reduces the maintenance of the Sausage (Foil) Pack Gun and prevents it from being damaged. It prevents contamination to environment & contamination of human hand-Skins.
- 4) **VakTools® Easy Attach Adapter** remaining fixed inside of Sausage (Foil) Pack Gun, Standard Plastic Cartridge Nozzles in different Nozzle forms can be easily adapted onto Screw thread form by **VakTools® Easy Attach Adapter**.
  - Saves time and labor.
- 5) **VakTools® Easy Attach Adapter** enters in the Sausage (Foil) Pack head completely and tightly, Half-empty Foil Pack: Adhesive-Caulking-Sealant reseal & cut off air contact. Only with self-adhesive tape on the top of Plastic Nozzles. Eliminate Sealing by tape on the Sausage (Foil) Pack surface Prevents contamination of human hand-Skins and the environment
- 6) **VakTools® Easy Attach Adapter** is a patent pending product.

7) **VakTools® Easy Attach Adapter** produced from Special Polymer plastic

- Impact resistance
- Broken Resistance
- Dent Resistance
- Adhesive-Caulking-Sealant cannot stick after Cured on the Polymer plastic
- Easy Clean
- 100% recyclable, sustainable and environmentally friendly product category
- Not absorb water and moisture.
- Toxic Free
- Waste material cannot stick to the plastic surface.
- Not support bacteria, mold or fungus growth
- Not support corrosion or rust formation like metals
- Lightweight compare materials

**FYI:**

Plastic Cartridges & Sausage (Foil) Pack Gun Nozzles allow for controlled amounts of Adhesive-Caulking- Sealant to be dispensed, ensuring precise application while minimizing product waste.

**What is a Sausage (Foil) pack:**

A Sausage (foil) pack packaging system is very similar to a sausage. They have a composite foil skin that surrounds the Adhesive-Caulking-Sealant. The skin is then sealed off at both ends. That's why we typically refer to foil packs as 'sausages'. To get the product out, you just need to remove the seal on one end of the sausage and place it into the applicator tool. There is no thread to screw a nozzle on. The nozzle comes with the applicator.

**What is a cartridge:**

A cartridge is a plastic cylinder that contains the Adhesive-Caulking-Sealant. It will have a plastic bung in the bottom of the cartridge that keeps the Adhesive-Caulking-Sealant in place. There is also a plastic cap on top of the cartridge that you will need to cut off before you can use it. A nozzle will then screw onto the thread, and you are ready to go.
